"GREAT FUCKIN GAME!!" by:

this is a great game that allows the player to perfectly emulate the wrestling scenarios of the WWF. you can a huge variety of moves when your opponent is in different positions: st sitting, etc. it has a large list of playable and unlockable characters to choose from all whom are associated with the WWF during the time of this game. the only complaint i have a the glitches when saving your career mode. the game will often erase your progress randomly. this, however, is only a programming glitch. the style of wrestling games has evolved of...[Read full review](#)

"Simply Put: The Best Wrestling Game EVER MADE!!!" by:

[hotnewton\\_00](#) ( 1743 ★ )  Top 25 Reviewer

WWF No Mercy (N64)

The only wrestling game you need!!!

THQ followed up the hit wrestling games WCW vs the World, WCW/NWO Revenge, and WWF Wrestlemani 2000 with this incredible game.

No Mercy offers over 60 characters, 10 arenas, 7 backstage areas, as well as a ton of unlockables.

The Create-a-Wrestler mode is the best I've ever seen. Tons of costumes, body types, and a huge list of wrestling moves makes this CaW simple yet effective.

The gameplay itself is the best I've seen, simple button combos, and the Joystick special makes No Mercy t...[Read full review](#)

"This game definitely is not a timeless classic, but it is still a blast!" by:

[grownmanblaise](#) ( 17 ★ )

I am a huge fan of virtually every wrestling game on the N64, both with the WWF and WCW. Recently, I plugged in my old N64 and had a blast playing Wrestlemania 2000. Many p much better WWF No Mercy was, so I decided to give it a shot, especially since it only cost \$2.50. Though this is a fun game in its own right, I would not necessarily say it is as gr would be. Aside from a deeper roster, this game felt on par with Wrestlemania 2000 and WCW/NWO Revenge.

The gameplay mechanics are basically the same, though I gotta say it is a great system of con...[Read full review](#)

"Buy this game, it is worth it." by:

[tdavila91](#) ( 9 )

This has to be one of the greatest games of it's time. You can create a wrestler that can range from being really goofy and funny to serious and awesome. There is an endless amot combinations. I bought this game because my friend used to own it, and we'd get down on a triple threat ladder match that would last up to two hours. The single player mode is pre the multiplayer mode is the only reason I bought it. It is a MUST have!

"Best wrestling game ever" by:

[nathansdad12](#) ( 13 ★ )

this is the best wrestling game ever. too bad they cant find a way to make the smackdown games using this engine. The customization you can do to this game is unmatched to ar any other platform that i have ever played. you can change just about everything about this game to suite you better. From little things like costumes, names, wrestle selection loca edge from the end of the list to the top if you use him more than anyone else for example)to truely unique things like having a triple threat match where the only way to win is to kno opponent. tons of...[Read full review](#)
